1. Tree watering and maintenance is required for new tree establishment, in particular during the first 3-5 years, and continues to be the responsibility of the adjacent property owner listed on this permit unless a Maintenance Assessment District is formed. When a change in property ownership occurs, this responsibility must be transferred to the new property owner.
2. All street tree selections shall be consistent with the approved Street Tree Plan in the applicable Community Plan. If there is no adopted Street Tree Plan, approval from the Street Tree Coordinator is required and the selection shall match the existing species in your area to achieve continuity.
3. **Minimum size** of all new trees is a 24-inch box; palm trees to be a minimum of 10ft. brown trunk height (BTH).
4. All new trees must be installed with tree stakes and root barriers (see attached specifications) and conform to the City of San Diego Landscape Regulations and Standards.
5. A site plan must be attached to this application showing the location of the street tree(s), parkway width, irrigation, utilities, and all other pertinent information prior to approval.
6. Prior to initiating any tree planting, this application must be completed in its entirety, approved and signed by the City.
7. When tree(s) are being removed and replaced, the property owner assumes all related removal and planting costs, including the responsibility of replacing any sidewalk and/or curb that was damaged, or repairing any sidewalk tripping hazards. Contact Development Services at (619) 446-5000 to obtain the required City permit for sidewalk replacement.
